Education

Koç University , M.Sc. in Computer Science	2023–2026
Research focus: Password-based authentication systems (MPC), privacy-preserving ML, and post-quantum cryptography.	
Amirkabir University of Technology(Polytechnic of Tehran) , M.Sc. in Applied Mathematics	2017–2020
Research focus: Quantum Error-Correcting Codes and Information-Theoretic Cryptography.	
Amirkabir University of Technology(Polytechnic of Tehran) , B.Sc. in Applied Mathematics	2014–2017
Amirkabir University of Technology(Polytechnic of Tehran) , Minor in Physics	2016–2018

Publications & Projects

- **UpSPA / RoUpSPA** ([ePrint](#), [code](#), [extension](#)): Lead author of *UpSPA* (submitted to WPES 2026) and *RoUpSPA* (under preparation for ACM TOPS). Designed threshold-based password authentication protocols and an open-source password-manager/browser-extension prototype. Proposed PBB-, quorum-, and blockchain-based synchronization architectures, together with Layer-1 and Layer-2 mechanisms for robust and scalable credential management.
- **FLDP / SpectraDP**: ongoing PPML work on frequency-domain differential privacy for federated learning; comparing spectral masking with random DP baselines under accuracy, privacy, communication, and reconstruction-error metrics.
- **CURE**: implementation/debugging support for homomorphic-encryption-based privacy-preserving split learning; helped investigate Go/Lattigo and parallel encrypted-experiment issues. Contribution was code-level support, not paper authorship.
- **QuasarSSO**: post-quantum password-protected SSO system under preparation.
- **AEGIS**: mechanizable framework for post-quantum IoT authenticated key exchange.

Research & Professional Experience

KU-Crypto Lab , Koç University, Research Assistant	2023–Present
Working on cryptographic protocols and secure authentication systems under Prof. Alptekin Küpçü.	
BTL Coin Software Developer	2021–2023
Developed automated crypto-asset management and market analysis tools using Golang and Docker.	
Institute for Research in Fundamental Sciences (IPM)	2020–2021
Worked on quantum machine learning implementations using Qiskit and PyQuil.	

Teaching & Academic Service

- **Teaching assistant for courses in**: Modern Cryptography, Linear Algebra, Computer Networks, Data Structures & Algorithms, Discrete Mathematics, Logic, Probability, PDE, General Physics II, and Calculus I–II at Koç University and Amirkabir University
- **External reviewer for**: IEEE TIFS (2024–present), ACM ASIACCS (2024, 2026), ESORICS (2025, 2026), ACNS (2026), Royal Society Open Science (2024), PeerJ (2026), JISA (2025), and Turkish Journal of Electrical Engineering & Computer Sciences (2025)

Honors & Awards

- Outstanding Teaching Assistant Award, Koç University (2025).
- Exceptional Talent Center recognition for graduate admissions and academic performance.
- Ranked among the top 5% of undergraduate students.

Technical Skills

Programming: Rust, Go, Python, MATLAB
Tools: Docker, L^AT_EX, Qiskit, PyQuil, Lattigo
Areas: Cryptography, SMPC, PQC.

Conferences & Workshops

- Frontiers in Mathematical Science 5th,6th Conference - in IPM(Tehran) - July 2017,2018
- Workshop on Mathematics of Information-Theoretic Cryptography - in **IMS**, Singapore - September 2016
